

## Product Information Guide

# Zybox advance

Product Category:  
**Air Freshener**

Core Features:

**Revolutionary Odour Eliminating AqFresh™ Technology**  
**Compatible With All Zybox Microbiological Products**  
**The Perfect Air Freshener For Stubborn Odours**

### Description:

**Zybox Advance with AqFresh™ is an instant air freshener in a ready-to-use formula with revolutionary AqFresh™ innovative technology.**

Environment-friendly, highly versatile and fast acting. Friendly to humans and pets. Removes tough, lingering and obnoxious malodours by capturing and holding them. Eliminates allergens on contact. So effective it works without the need to mask with fragrance and returns the air to its natural fresh balance.

AqFresh™, based on cucurbiturils, a barrel-shaped molecule that can capture, hold and release molecules. Provides an advance in fragrance longevity, enhancing the perfume. AqFresh™ softly holds fragrance within the cucurbituril barrel, releasing fresh scent when it comes into contact with a malodour; helping to remove malodours from the air and soft furnishings. A truly revolutionary technology, AqFresh™ also helps to remove allergens including dust mite, pollen, cat and dog dander.

Extensively tested on a broad range of odours including urine, faeces, pet smells, cooking and food odours, tobacco, body odour and even suppresses unpleasant odours from chemicals.

### Product Options:

**Ready To Use - 750ML | 25 Litre Jerry Can | 208 Litre Drum | 1000 Litre IBC**

### Fragrances

## Product Information Guide | Continued

### Smart Fragrance Delivery:

#### MALODOUR MOLECULAR EXCHANGE

Exceptional performance at capturing and holding malodours eliminating them from the air, whilst releasing fragrance molecules.

#### ADVANCED FRAGRANCE RELEASE

The technology delivers perfume longevity, with the molecular exchange capturing volatile odour compounds eliminating them and leaving a long-lasting fragrance.
