

## Product Information Guide

# Zybox clear

*A powerful  
and effective  
solution to keep  
drains flowing...*

*...the difference is CLEAR!*

Product Category:

## Fat, Oil and Grease Digester

Core Features:

**Breaks Down Fat & Grease | Bacteria & Enzyme Action | Non Corrosive**

Description:

**Zybox Clear is a powerful microbiological liquid that digests fat, oil, grease, hair and soap scum. Utilising the power of multi-strain bacteria and 'free' enzymes, Zybox Clear reduces the solids, grease and odours from grease traps and drains allowing them to work more efficiently and reduce the frequency of emptying or unblocking.**

Zybox Clear is used in food production areas such as restaurants, care home kitchens, staff canteens, schools and food manufacturing companies. Also effective in gyms, hotels and student accommodation where there are build ups of hair and soap scum.

Proven to lower FOG (Fat, Oil and Grease), BOD (Biological Oxygen Demand), COD (Chemical Oxygen Demand) levels and suspended solids in wastewater.

Product Options:

**Concentrate** - 5 Litre | 25 Litre Jerry Can | 208 Litre Drum | 1000 Litre IBC

**Fragrances**

Product Information Guide | Continued

Application:

MANUAL:

Can be manually dosed in to drains at the end of the working day, as close as possible to the source of the grease. 500ml of clear with 5 litres of warm water and poured down the plughole ideally last thing at night. This dose can be repeated over 4 nights.

Recommended Dilution:

Dilution	Standard	Heavy
General	10:1	2:1

AUTOMATIC:

For best results use with an automatic dosing system set up to suit the needs and operations of the business premises. If you require advice please contact us.

Directions For Use:  
 Shake bottle well before diluting  
 Dilute with warm water, NOT hot  
 Use within 14 days once diluted  
 For best results use last thing at night Repeat daily as required

**NEVER USE UNDILUTED  
 NEVER MIX OR USE WITH  
 OTHER PRODUCTS**
