

ZYBAX PRESSURE SPRAYER

With dilution label and fixed brass nozzle

Weight 970g
Capacity 5.4L

Packs each
Code ZPS-5

A 5 litre pressure sprayer with a specially designed fixed nozzle allowing maximum coverage for large areas such as carpets.

Designed for use with Zybox Ultra or Fresh concentrate for safe and economical dilution of product.

STEP 1

Prepare the Pressure Sprayer by unscrewing and removing the plunger.

STEP 2

Fill the sprayer bottle with warm water to the fill line marked on the label. DO NOT FILL WITH HOT WATER!

STEP 3

Please read the ZYBAX ULTRA Concentrate label thoroughly before use and seek advice if any information is unclear before use.

STEP 3

Shake the bottle of ZYBAX ULTRA Concentrate vigorously for 60 seconds to mix any sediment from storage.

STEP 4

Fill the sprayer bottle with ZYBAX ULTRA Concentrate to the fill line marked on the label. DO NOT OVER FILL.

STEP 5

Re-connect the plunger to the bottle screwing clockwise until a tight seal is created.

STEP 6

To prime the pressure sprayer for use, move the plunger up and down to mix and create pressure needed to effectively deploy the solution. As pressure drops, repeat as needed. Apply ZYBAX ULTRA as instructed on the label and Product Guide.
