

ZYBAX PUMP SPRAYER

1.5 litre with dilution label

Weight 370g **Packs** each
Capacity 1.5L **Code** ZPS-1

A 1.5 Litre pump sprayer complete with dilution control guide label, allows constant spray which dispenses effective surface coverage.

Designed for use with Zybox Ultra or Fresh concentrate for safe and economical dilution of product.

STEP 1

Prepare the Pump Sprayer by unscrewing and removing the trigger.

STEP 2

Fill the sprayer bottle with warm water to the fill line marked on the label. DO NOT FILL WITH HOT WATER!

STEP 3

Please read the ZYBAX ULTRA Concentrate label thoroughly before use and seek advice if any information is unclear before use.

STEP 4

Shake the bottle of ZYBAX ULTRA Concentrate vigorously for 60 seconds to mix any sediment from storage.

STEP 5

Fill the sprayer bottle with ZYBAX ULTRA Concentrate to the fill line marked on the label. DO NOT OVER FILL.

STEP 7

Re-connect the trigger to the bottle ensuring a tight seal. Apply ZYBAX ULTRA as instructed on the label and Product Guide.

STEP 8

To prime the pump sprayer for use, move the plunger up and down to mix and create pressure needed to effectively deploy the solution. As pressure drops, repeat as needed.
